You will develop a broad understanding of the construction industry including workplace safety, moving, and handling resources as well as demonstrating practical skills in various elements.

Typical Functions:

- Operate a variety of hand and power tools, including drills, forklifts, skid loaders and other tools as directed by supervisor.
- Clean and prepare construction sites as needed, including erecting scaffolding, removing, and properly disposing of debris and waste materials and digging trenches as well as backfill holes to prepare the construction site.
- Comply with all safety requirements within the construction site.
- Follow instructions from construction project managers and supervisors.
- Assist craft workers and supervisors on any construction detail work that may be needed.
- Load and unload materials and equipment from trucks both manually and with the use of equipment as directed.
- Work flexibly across worksites and assisting where needed.
- Maintain a safe and clean job site by handling materials and storing them properly, picking up and removing all tools and equipment when not in use and securing the job site daily.
- Maintain construction tools and equipment so they are always ready for use safely.
- Assist other construction workers, technicians, engineers, and laborers in any area that is needed.
- Be prepared to work in all weather and at heights above 6 feet.
- Be prepared to work on scaffolding up to 10 feet high.
- Be aware of risk assessments and method statements relating to your own area of work and to work in a safe manner taking account of other people’s health and wellbeing.
- Follow all safety procedures on the job site and report violations immediately to management.
- Work within a team to bring projects in on time.
- Always comply with Group confidentiality and information security policies.
• Duties will vary from time to time within the broad site of your role and grade. You are required to undertake any such reasonable and appropriate duties.
• Other duties as assigned.
